

“What’s New in Prostate Cancer – an Update for GPs”

Attendance at this event qualifies for 4 CPD points

PRESENTERS

Dr David Sofield – UROLOGICAL SURGEON

David Sofield is a Fremantle based urological surgeon specialising in urological cancer surgery and urethral reconstructive surgery, including management of male urinary incontinence post radical prostatectomy. Trained in Western Australia, David spent several years in the UK undertaking further training including cancer and reconstructive fellowships. He introduced laparoscopic radical prostatectomy to WA in 2004 and has trained a large number of consultants and fellows in this procedure. With rooms in East Fremantle he currently operates at Bethesda, Fremantle and SJOG Murdoch Hospitals.

Jo Milios – MENS HEALTH PHYSIOTHERAPIST

Jo Milios is a Perth-based Physiotherapist who specialises in Men’s Health, focusing on Prostate Cancer Pre & Rehabilitation, Incontinence, Erectile Dysfunction (ED), Sexual Health issues, Pudendal Neuralgia, Chronic Pelvic Pain and Exercise prescription. Working in tandem with Urologists, GP’s, Psychologists and Sexual Health physicians, Jo has three clinics, one north of the river in Carine, one south of the river, in Palmyra and a country clinic in South West Busselton.

Emilia Hay – PROSTATE CANCER FOUNDATION OF AUSTRALIA

Emilia has previously worked extensively as a counsellor, group therapist and Manager of Clinical Services at Holyoake specialising in counselling and group therapy for all members of the family where there is problematic alcohol or drug use. She also has expertise in training clinicians in group therapy and couples counselling. Emilia has been the Support Group and Outreach Co-ordinator (WA) with Prostate Cancer Foundation of Australia since May 2012 and provides training and support to Support Group Leaders and Ambassadors.
